Group Overview

Listed on the Singapore Stock Exchange, AusGroup offers a range of integrated service solutions to the energy, mining and industrial sectors across Australia and South East Asia. Our diversified service offering supports clients at all stages of their asset development and operational schedule.

Through subsidiaries AGC, MAS and NT Port and Marine, we provide maintenance, construction, access services, commissioning & handover and marine services. With over 29 years of experience, we are committed to helping our clients build, maintain and upgrade some of the region’s most challenging projects.

AGC
AGC is an experienced integrated services provider, offering a range of complementary service solutions from maintenance and construction through to commissioning and handover.

MAS
MAS Australasia is AusGroup’s primary access services provider, specialising in scaffolding, rope access and associated services for all projects across the natural resource, infrastructure and commercial sectors.

NT Port and Marine
NT Port and Marine offers logistics and marine transportation support services to the oil and gas industry, general marine and defence sectors.

With locations at Port Melville and East Arm, we can provide marine and land fuel, areas for laydown and storage, berthage and accommodation facilities.
AusGroup's integrated services approach offers clients a tailored solution for projects large and small, no matter the complexity.
Health, Safety, Sustainability and Quality

Our Health, Safety, Sustainability and Quality (HSSQ) expectations are vital and integral elements of our business. They are embedded into our management systems and processes. We strive for HSE excellence in all that we do.

Our comprehensive HSE systems are built on a foundation of risk management and are certified to AS4801 and OHSAS 18001. We are focused on improvement by engaging and encouraging our people.

Perfect Day

The safety and wellbeing of our people is one of our core values. The Perfect Day philosophy builds awareness that the choices we make at work ultimately impact our families and our personal activities.

Perfect Day is an initiative that moves away from the traditional mind set of HSE to a dynamic and positive approach that works to deliver excellence in HSE performance one day at a time. A day when there are zero injuries or incidents, no harm to the environment and all of our employees return home in the same condition in which they arrived is a Perfect Day.

The Perfect Day initiative was developed from the feedback of our employees who felt that perfect safety performance could be achieved day by day. It is a goal and aspiration that all our people believe in.

Quality

Providing quality of service starts with our people, and we are committed to developing a competent and highly motivated workforce that is united in delivering performance excellence. To drive this, the company’s strategic goals, values and expectations are communicated to all of our employees to ensure alignment and belief of our shared vision.

Our people are accountable to follow the documented work processes available in our Management System. AGC and MAS Australasia have achieved certification to ISO 9001:2008 and continue to drive and challenge our people and processes for improvements. As a result, a dedicated team has been formed to ensure continuous improvement across all our projects.
AusGroup’s integrated services approach offers clients a tailored solution for projects large and small, no matter the complexity.

JKC - INPEX - Ichthys Project Onshore LNG Facilities
AusGroup Services

Supporting our clients to build, maintain and upgrade.

With over 2,000 employees and 13 strategically located operating centres, AusGroup provides a comprehensive range of services across the construction, commissioning & handover and operations & maintenance phases, throughout regions of Australia and South East Asia.

Offering a range of capabilities suited to all phases of the asset lifecycle, that can be provided individually or as an integrated solution.

Our core values are considered in every decision we make as a business.

Values that drive our business

Our Vision
Our goal is to become an integrated company with diversified capabilities, that deliver an integrated and innovative solution, across multiple industries and multiple locations.

Our Values
Our values guide our behaviours. They reflect the way we go about our business and are core to everything we do.

Safety & Wellbeing
We care about the safety and wellbeing of our people at our workplaces, the impact we have on the environment and the communities in which we work. We engage with, encourage and provide opportunities for our team members as we strive to achieve our goals.

Integrity
We are open, honest, consistent and fair in what we say, what we do and how we work together. We see reflection as a key enabler to make necessary improvement.

Accountability
We are responsible to each other and the teams in which we work. We rely on each other to do the right thing to achieve our shared goals and aspirations. We are accountable for our words, our work and our actions.

Continuous Improvement
We find continuous improvement in everything we do. We value being the best we possibly can be – as an individual, as a team and as a Company.

Courage
We innovate, we challenge and we improve in everything that we do. We take the initiative to challenge our performance, to push our boundaries and barriers and to continually improve ourselves and our Company.

Agility
We are value-focused at all times, embrace change, are resilient and agile in our delivery, and efficient and effective in our operations.
AusGroup’s integrated services approach offers clients a tailored solution for projects large and small, no matter the complexity.
AusGroup
Project Experience

Maintenance
Chevron Australia Master Contractor Services Contract

Client:            Chevron Australia Pty Ltd
Location:         Ashburton North, Western Australia
Contract:         Five year contract from 2015

AGC Industries Pty Ltd, a subsidiary of AusGroup Limited, was awarded a five-year maintenance services contract by Chevron Australia Pty Ltd to provide brownfield maintenance and support services for the operational phase of its Western Australian assets.

The scope of work encompasses maintenance and brownfield execution services. The services will be delivered as part of a five-year multi-discipline contract.

The contract will create at least 100 local jobs as well as traineeship and apprenticeship opportunities for the indigenous community through AusGroup’s ATSI (Aboriginal and Torres Strait Islander) program.

Construction
NT Port and Marine Pty Ltd - Port Melville Bulk Fuel Facility

Client:            NT Port and Marine Pty Ltd
Location:         Melville Island, Timor Sea, Western Australia

AGC commenced the engineering, procurement, construction and commissioning of the 30 million litre storage capacity marine diesel supply depot and completed it within 12 months. During the execution of the project, we were able to demonstrate strong project management capability, tested by a remote, tropical and environmentally sensitive location and the demands of a fast-track EPC project delivery model.

The project also enabled the integration of engineering and marine service capabilities through NT Port and Marine’s Top End Marine Supply Base. AGC managed the pipework fabrication, design, procurement, remote site establishment, system commissioning and handover duties. The combination of AusGroup’s marine and ATSI services provides significant project and legacy benefits to facility owners and the local Tiwi community.
Access Services

Chevron-operated Gorgon Project
Client: CB&I and Kentz Joint Venture (CKJV)
Location: Barrow Island, Western Australia
Contract: July 2013 - June 2016

Scaffolding specialist MAS Australasia Pty Ltd, a subsidiary of AusGroup Limited, were commissioned by CB&I and Kentz Joint Venture (CKJV) on the Chevron-operated Gorgon Project, to erect multi-purpose scaffolding which will be used to provide access for insulation, painting, installation and other works undertaken on Barrow Island.

The scope also included the provision of key MAS management personnel and the use of a specialised in-house Scaffold Management System. MAS also assisted with the planning, design, engineering and coordination of scaffolding on the Project.

Fabrication

Woodside Greater Western Flank Project - Phase 1
Client: Fugro-TSM
Location: Greater Western Flank, North west coast of Australia
Contract: 2013 - 2014

As part of the Greater Western Flank Project Phase 1, AGC were subcontracted by Fugro-TSM to fabricate 23 post metrology subsea spools for Woodside Energy Limited.

The work performed was highly critical and required tightly regulated quality procedures. AGC’s systems, previous performance, and experience provided confidence with clients when undertaking such contracts. AGC produced high quality workmanship which came within budget and more importantly, with zero incidents or injuries.

Painting, Insulation and Fireproofing

INPEX - Ichthys Project Onshore LNG Facilities
Client: JKC Australia LNG Pty Ltd
Location: Bladin Point, Northern Territory
Contract: March 2015 - current

AusGroup subsidiary AGC Industries Pty Ltd and Meisei Industrial Co. Ltd entered into a joint venture and became AMJV. AMJV were awarded a contract by JKC Australia LNG Pty Ltd on the onshore facilities of the INPEX-operated Ichthys LNG Project, near Darwin, Northern Territory, Australia.

The subcontract scope of work includes; painting, surface protection, fireproofing and insulation works for lead contractor JKC.
