Income statement (abstract of key metrics)	Q3 2019 AU\$'000	Q3 2018 AU\$'000	+ / (-) %
Revenue	66,325	136,273	(51.3)
Gross profit	9,334	10,244	(8.9)
Gross Margin	14.1%	7.5%	
EBIT	1,933	6,642	(70.9)
Finance Costs	1,105	2,737	(59.6)
Net profit for the period	584	3,538	(83.8)
Margin	0.9%	2.6%	

AusGroup has reported net profit after tax of AU\$0.6m, which is lower than the comparative quarter mainly due to the completion of major projects in FY2018.

Revenue for Q3 2019 decreased by 51.3% quarter on quarter (QoQ) to AU\$66.3m (Q3 2018: AU\$136.3m) as a result of the completion of major project work in the previous period and timing delays in the start of new work. It is pleasing that the revenue for Q3 is on an increasing trend compared to the Q2 revenue of AU\$58.3m.

Gross profit decreased by 8.9% QoQ to AU\$9.3m in Q3 2019 (Q3 2018: AU\$10.2m) again due to the drop in activity following the completion of the major projects in the comparative period. Whilst revenue is lower by 51.3% the gross profit is only lower by 8.9% (at a gross margin of 14.1% in the quarter) as a result of the successful settlement of completed projects.

EBIT of AU\$1.9m for the quarter is less than the prior year's comparative quarter, a decrease QoQ of 70.9% for the reasons outlined above.

Finance costs are now reducing to the lowest levels seen in the business for five years following the completion of the debt re-financing mentioned previously, the level of finance costs have reduced by 59.6% when compared to the previous period.

Cash and cash equivalents	24,352	37,846	(35.7)

**Cash and cash equivalents:** Cash and bank balances decreased 35.7% by AU\$13.4m to AU\$24.4m at 31 March 2019 (30 June 2018: AU\$37.8m), due to delayed settlements of claims which were subsequently received early in Q4 2019. These receipts of \$8.9m returned the cash and cash equivalents to a consistent level of cash in hand since the start of the financial year.

**Net borrowings** have reduced by AU\$24.1m since 30 June 2018 to AU\$58.9m a drop of 29.0%, reflecting the partial repayment of the principal on the Noteholder debts and reduction in the long-term bank debt in the last two quarters.

**Total shareholders' equity** as at 31 March 2019 has improved by 130.7% to AU\$96.3m, an increase of AU\$54.6m, which results from the increase in share capital following the completion of the fund raising activities under the share placement and rights issue.

**Summary**

Chief Executive Officer and Executive Director Shane Kimpton said, "Maintaining the trend of another profitable quarter is rewarding and demonstrates the underlying strength in the earnings base from our current portfolio. The business has stabilised during the quarter returning to more normalised levels of work following the very busy debt restructuring activities of the last six months. The recapitalisation of our business helps us maintain strong net worth and liquidity levels required to support the growth of the business across all operating sectors."
